## **CAPACITY**

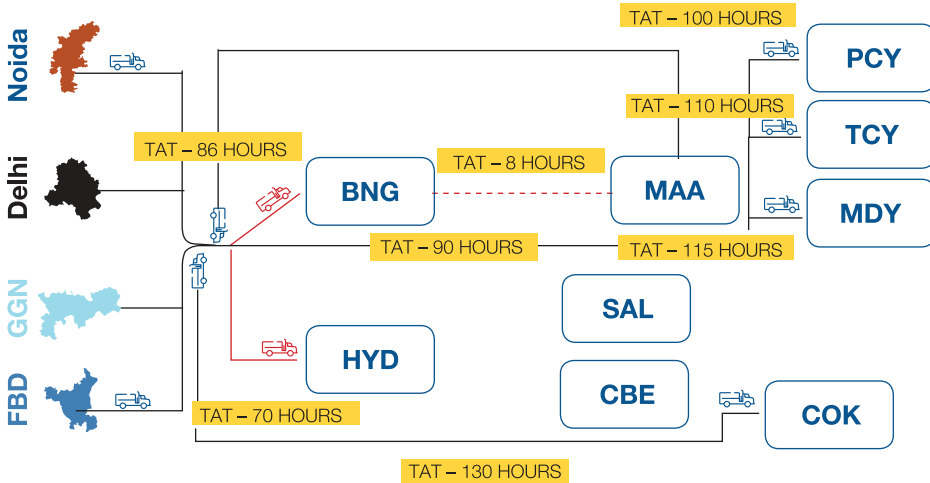

## **DOMESTIC SURFACE SOLUTIONS - FTL**

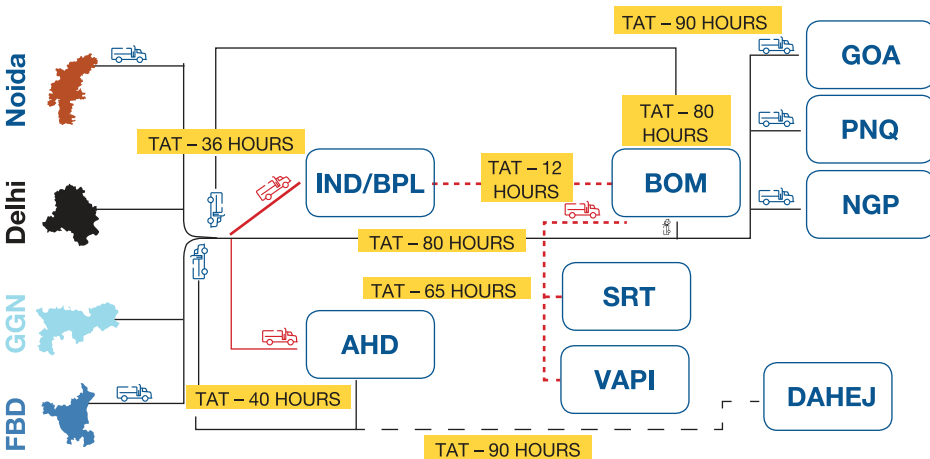

- NCML's LOC(™) for doing the best fit calculation for the correct truck type
- LOC gives the optimised truck type on the basis of the following:-
  - Permissible Weight Carrying of the vehicle
  - Volume of the vehicle
  - Destination to be served
  - Can work various permutations & combinations like 95% Wt & 94% volume optimisation etc
- NCML has a dedicated team to source vehicles from any origin to destination and the same is done with a guaranteed TAT
- 100% visibility of FTLs via GPS  
Currently specialise in the following truck types and have an attached fleet of more than 500 vehicles – 18 – 32 Ft SXL & MXL Containers
- Can operate open vehicles as well for some of our clients

## FTL North SOUTH CORRIDOR

## FTL North WEST CORRIDOR
